Lucky Brand Watches

Being *lucky* is about being true to yourself. It's about following your instinct and being unafraid to take a risk.

That's the story encapsulated by each one of our products. Inspired by creativity and rooted in rock 'n roll, Lucky Brand products tell the world that the most serendipitous moments are never starched.

The most interesting discoveries may leave us a little wrinkled and the most memorable experiences are anything but common.

Lucky Brand watches encapsulate the power and joy of expressing yourself and are made of the finest materials. Each watch features vintage-inspired design and hidden details. Available at Macy's nationwide this holiday season.
